DIVISION OF FINANCE

HISTORICAL DATA

The first banking corporations in Missouri received their charters by special acts of the territorial legislature and, after 1820, by acts of the Missouri General Assembly permitting the incorporation of particular banks. During the pre-Civil War period, the state's financial needs were also served by a number of incorporated private banks which lacked the legal authority then possessed by state-chartered banks—that of issuing bank notes which circulated as currency. Private or unincorporated banks continued to operate in Missouri as late as the 1920s and a number of today's banking corporations began operations as private banks.

In 1857, the General Assembly enacted a statute creating state administrative offices for the supervision of state-chartered banks. The Banking Commissioner and Assistant Banking Commissioner were given four-year terms and were appointed by the Governor. The Commissioner and Assistant Commissioner had custody of the plates and dies used for the printing of each bank's notes and one of the two state officials was required to countersign each bank note issued. Periodic bank examinations were required by the act. The first person to serve as Banking Commissioner was Claiborne F. Jackson. He was elected Governor in 1860, urged Missouri to secede from the Union and was replaced by an anti-secessionist Governor during the 1861 state convention at which Missouri decided to remain in the Union.

In 1863, an act with the stated purpose of creating a national currency and which permitted state banks to become national banks was passed by the United States Congress. While a national currency was undoubtedly needed, the main underlying purpose of the act was to better finance the Union's Civil War effort. National banks were permitted to issue bank notes up to an amount equal to ninety percent of the market value of U.S. Government bonds deposited with the U.S. Treasury. Thus, national banks were forced to buy bonds to finance the staggering cost of the Civil War. In 1865, Congress imposed a ten percent tax upon the payment, after July 1, 1866, of any bank note other than national bank notes. As a result of this statute, most of the bank note issuing state-chartered Missouri banks became national banks and in 1866, the posts of Banking Commissioner and Assistant Banking Commissioner were eliminated.

Missouri's first general incorporation act for banks was adopted in 1877. No prior submission to or approval by any agency of the state was required by the act. The first comprehensive trust company statute was adopted in 1885. In 1895, an act was passed requiring annual bank examinations and the Secretary of State was given administrative powers to enforce compliance with the banking statutes.

In 1907, the General Assembly revised the banking statutes and created the State Banking Department headed by the Bank Commissioner. This action took effect in 1909.

In 1921, the State Banking Department became the Department of Finance and the title "Commissioner of Finance" was created. The 1945 Constitution, which took effect July 1, 1946, changed the name of the Department of Finance to the Division of Finance and placed it under the jurisdiction of the Department of Business and Administration. The State Banking Board was created in 1955 to handle appeals from certain decisions and orders of the Commissioner of Finance.

Under the Reorganization Act of 1974, the Department of Business and Administration was abolished and the Division of Finance was transferred to the new Department of Consumer Affairs, Regulation and Licensing, which by Constitutional amendment adopted on August 7, 1984, was renamed the Department of Economic Development.

Per Executive Order 06-04 the Division of Finance and the State Banking Board were transferred from the Department of Economic Development to the Department of Insurance, Financial Institutions and Professional Registration (formerly Department of Insurance). The transfer was effective August 28, 2006.

The director of the Division of Finance, by tradition referred to as the Commissioner of Finance, is appointed by the Governor with the advice and consent of the Senate. The "State Division of Finance" was created by Chapter 361 RSMo. Pursuant to that Chapter and Chapter 362 the Division is required to examine all state-chartered banks and trust companies at least once every eighteen-months. The purpose of the examination is to determine each institution's solvency, safety of operations and adherence to applicable state laws and regulations. The overall goal of the Division is to ensure a safe and sound banking system for Missouri.

Missouri was originally a unit bank state with restrictions on the location and number of branches. The restrictions were gradually removed during the 1970s and 1980s. Finally, a federal court ruled that national banks in Missouri were no longer subject to Missouri's branching limits. Immediately, state banks were given parity, first by emergency regulation and then by law, and all restrictions as to location and number were eliminated.

Protection of depositors is the fundamental concern which motivates the actions of the Division of Finance. Missouri laws contain numerous references to this strong public policy. It underlies the enforcement and removal actions authorized in Section 361.260, et seq. It is found in the law governing priorities in liquidation (Section 361.190) and it is reflected in the statutes prohibiting a bank from receiving deposits when it is either insolvent or in failing circumstances (Section 362.345). Accordingly, it is the policy of the Division to make every effort to assure that no losses are suffered by state bank depositors.

The Division of Finance is self-supporting through statutory assessments and fees based on the total assets and the relative costs to examine the institutions under its supervision. Effective August 28, 1991, House Bill 516 passed by the 86th General Assembly, created a special fund, known as the Division of Finance Fund, which is devoted solely to the payment of expenditures incurred by the Division for the regulation of banks, trust companies and other corporations subject to its jurisdiction.

Boards and Commissions

The State Banking Board, a judicial body, was created in 1955 to handle appeals from certain decisions and orders of the Commissioner of Finance. The bipartisan board is comprised of five members; two must be non-bankers, one must be a lawyer and two must be experienced bankers. The Savings and Loan Commission, created in 1957, serves a similar function for state-chartered thrift associations. This bipartisan commission is also comprised of five members, one of whom must be a lawyer. The Residential Mortgage Board was created December 1996 to hear appeals of decisions of the Commissioner of Finance relating to mortgage brokers and loan originators. This bipartisan board is comprised of five members; one must be a lawyer and three must be experienced in mortgage brokering.

Walk, Bart	Senior Examiner	62,688	St. Louis

DIVISION OF FINANCE

MISSOURI BANKING - 2008 TO 2010

BANK AND TRUST EXAMINATIONS

The Division of Finance regulates state-chartered banks and trust companies. The Division is required by Section 361.160 RSMo to perform examinations of all such state-chartered institutions. This law, as amended in 1996, extended the examination cycle from once each year to at least once in each eighteen-month period for institutions rated satisfactory. Institutions rated less than satisfactory are examined at least once each twelve months. All banks were examined within these frequency requirements in 2008 and 2009. This was accomplished with the cooperation of the Federal Deposit Insurance Corporation and the Federal Reserve Banks in alternating examination agreements.

The objectives of the Division of Finance in the examination process are to:

- Promote safe and sound banking and fiduciary practices in state-chartered institutions, thereby safeguarding depositors' funds and maintaining public confidence in Missouri state-chartered institutions.
- Determine the financial condition and operating risks of each institution. This includes reviews of the institution's capital adequacy, asset quality, management practices, earnings performance, liquidity position, and sensitivity to interest rate and market risk changes. Adequacy of internal management reports, computer systems, and fiduciary activities is also evaluated.
- Monitor compliance with State and Federal banking laws and regulations.
- Verify the accuracy of financial information provided to the public.

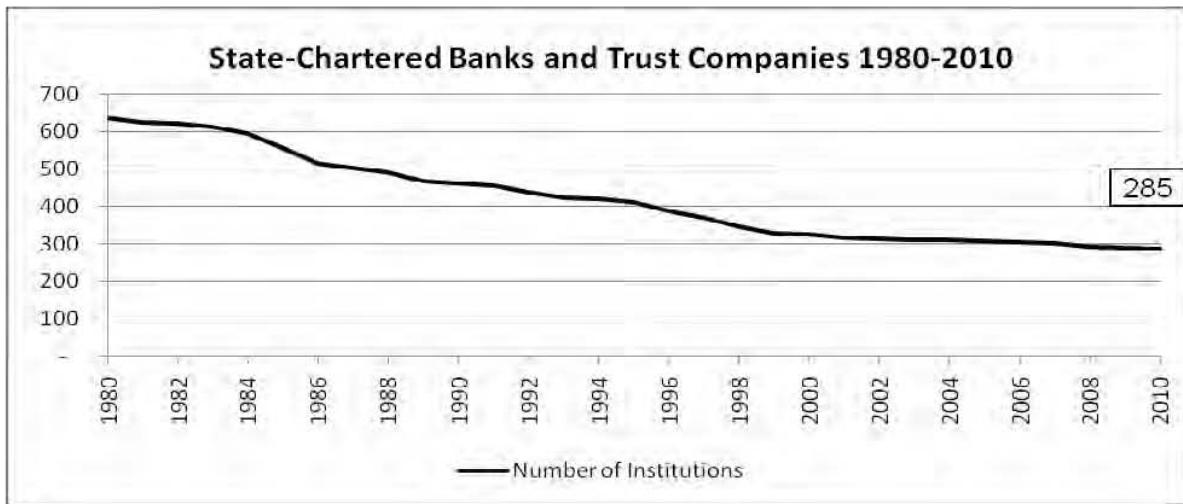

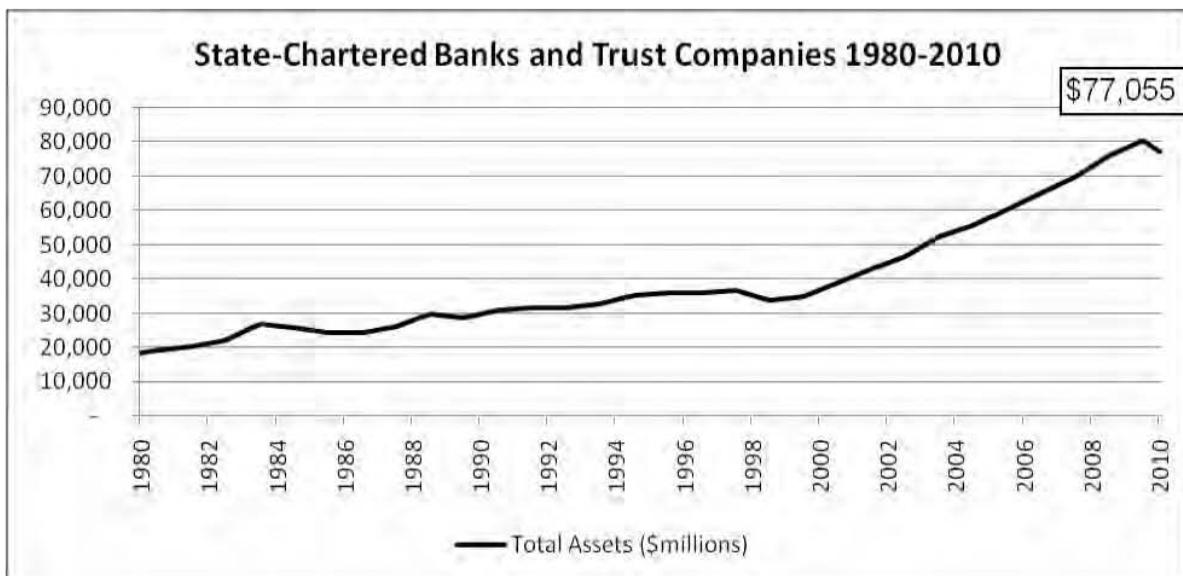

These objectives are met through the Division's supervisory process that stresses effective and efficient regulation, together with minimizing state government's burden on financial institutions. On-site examinations are conducted on commercial bank activities, trust operations, and computer systems to evaluate the institution's risk profile and management practices. In addition, the Division regularly conducts off-site statistical and financial reviews of each institution in order to identify emerging signs of elevated risk. Where abnormal risk concerns are noted, Division examiners visit the bank to develop a proactive resolution of developing problems. Banks and trust companies with significant weaknesses receive close regulatory attention including the possibility of enforcement action designed to address and correct problem areas. The Division may also take action to merge, close or otherwise address institutions with severe financial difficulties.

In 2004, the Division began evaluating each institution's program to comply with Federal anti-terrorism financing and money laundering laws.

The Division continues its efforts to reduce regulatory burden while performing examination activities. This has been achieved through efficiencies gained in risk focusing each examination and leveraging computer technology to enhance bank examiners' effectiveness.

DIVISION OF FINANCE

MISSOURI BANKS

DIVISION OF FINANCE

SAVINGS AND LOAN ASSOCIATIONS

Effective July 7, 1994, the responsibility of administering the laws regulating the savings and loan industry was transferred to the Division of Finance.

Chapter 369 RSMo requires the Division of Finance to exercise general supervision over the savings and loan industry, including the enforcement and execution of laws. Supervision includes periodic examinations to determine safety of operations and compliance with applicable laws and regulations.

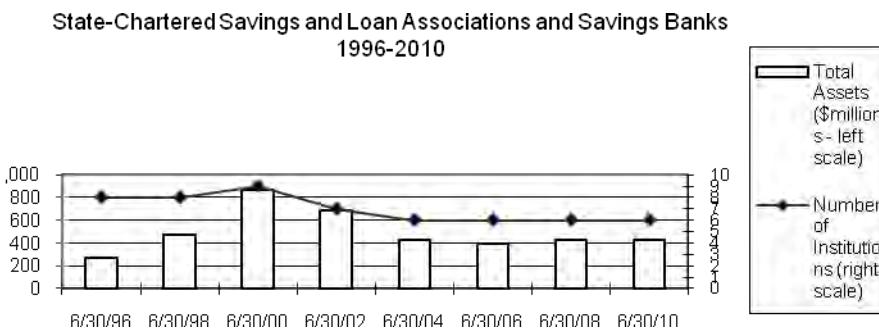

Comparative Statement of Condition State-Chartered Savings and Loan Associations as of June 30, 2008 and June 30, 2010

Millions of Dollars	6/30/08 6 State Savings & Loan Associations	6/30/10 6 State Savings & Loan Associations
Assets	\$432	\$424
Liabilities	379	372
Equity Capital	53	52

Summary

Between June 30, 2008 and June 30, 2010, the number of state-chartered savings and loan associations and savings banks was unchanged.

As of June 30, 2010 six state-chartered savings and loan associations existed with assets totaling \$424 million.

DIVISION OF FINANCE

CONSUMER CREDIT

The Division of Finance is charged with the responsibility of executing laws relating to consumer transactions under several statutes.

Sections 367.100 – 367.215 require licensing of consumer credit lenders, more commonly known as small loan companies. The supervision involves periodic examination for the purpose of assuring compliance with various consumer laws concerning rates, credit related insurance, disclosures, and refunding. The Division collects and consolidates reports of these companies' financial activities.

Sections 367.500 – 367.533 comprise the Title Loan Law which sets standards for companies exclusively engaged in making loans secured by titled personal property.

Chapter 365 is the Motor Vehicle Time Sales Act, a comprehensive licensing and disclosure law regulating time sales of motor vehicles. The supervision includes periodic examination to assure compliance with various consumer provisions.

Sections 364.010 – 364.070, the Missouri Financing Institution Licensing Act, regulates persons and entities engaged in the business of purchasing retail time contracts on merchandise other than motor vehicles. The supervision includes periodic examination for the purpose of assuring compliance with various consumer provisions, especially those found in the substantive law relative to Sections 364.010 – 364.070, the Retail Credit Sales Act (Sections 408.250 through 408.370).

The Missouri Second Mortgage Loan Act, Sections 408.231 through 408.241, treats loans secured by junior liens on residential real estate. The Division of Finance examines these loans for compliance with all of the consumer provisions.

The Missouri Premium Finance Law, found within Chapter 364, is a comprehensive licensing, disclosure, and rate act for institutions which finance insurance premiums. The Division of Finance maintains a supervisory authority over licensees under this act to assure compliance with provisions designed to protect the consumer.

Sections 408.500 – 408.506 require licensing and regulation of companies engaged exclusively in the business of making unsecured loans of \$500 or less, known as payday loans. The Division of Finance examines such lenders to assure compliance with the consumer protection provisions.

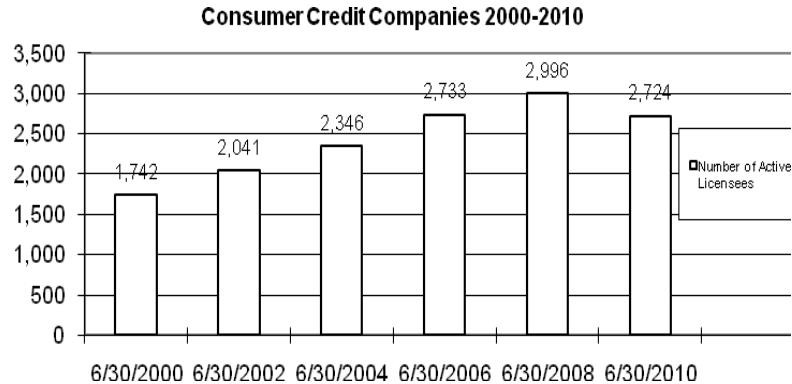

Section 408.510 created "consumer installment lenders", i.e. lenders who make loans of any size but in all cases requiring a minimum of 4 installments which distinguishes them from 'payday lenders'.

Sections 407.635 – 407.644 provide for the registration of credit services organizations, commonly known as "credit repair companies". The Division of Finance registers such companies and, under certain circumstances, requires performance bonds.

The Sale of Checks Law, found in Chapter 361, provides for licensing of companies which issue money orders and travelers checks or which transmit funds electronically. The purpose of the law is to assure that money orders issued in the State of Missouri are paid according to their terms. The Division licenses companies to engage in such business upon filing an application, certified audit, and bond or letter of credit to assure performance.

The Missouri Anti-Redlining Law, Sections 408.570 through 408.600, prohibits discrimination in making of loans secured by residential real estate because of location of a specific property or race, age, sex, marital status, religion, or national origin of the borrower. The Division enforces the anti-redlining laws relative to all state-chartered banks, savings and loan associations, and licensed financial institutions plus mortgage bankers. All such institutions are obliged to file reports periodically and those state-chartered or licensed institutions located within cities or counties with populations exceeding 250,000 persons are subject to examination by the Division as well.

The Debt Adjusters Law, Sections 425.010 through 425.040, as of August 13, 2007 requires bonding for persons who, for consideration, act as intermediaries to alter the terms of debts. The performance bond must be posted with the Director of the Division of Finance who also has complaint resolution responsibility under the act.

DIVISION OF FINANCE

RESIDENTIAL MORTGAGE LOAN BROKERS

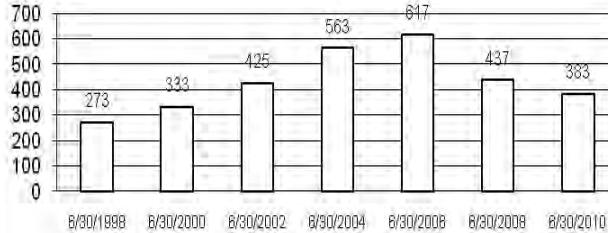

Sections 443.701 – 443.893 RSMo, as amended, assigns to the Division of Finance the responsibility of enforcing the laws that regulate residential mortgage brokers and mortgage loan originators. Supervision includes licensing and investigative powers.

A license is required to broker residential real estate mortgages unless the individual or company qualifies for an exemption. Before issuing a license, the Division of Finance is required to investigate each applicant for character, general fitness, experience and financial responsibility.

As of June 30, 2010, 383 mortgage brokers were licensed, and 20 mortgage companies were registered as "exempt" from licensing. "Exempt companies" are licensed with an agency of the federal government and are not required to be licensed under state law. With enactment of HB 382, mortgage loan originators are now required to be licensed annually. A total of 672 mortgage loan originator licenses were issued as of June 30, 2010.

The decline in the number of licensed mortgage brokers is primarily attributed to the downturn in the housing economy and the tightening of credit standards by the lenders.

Residential Mortgage Brokers 1998-2010

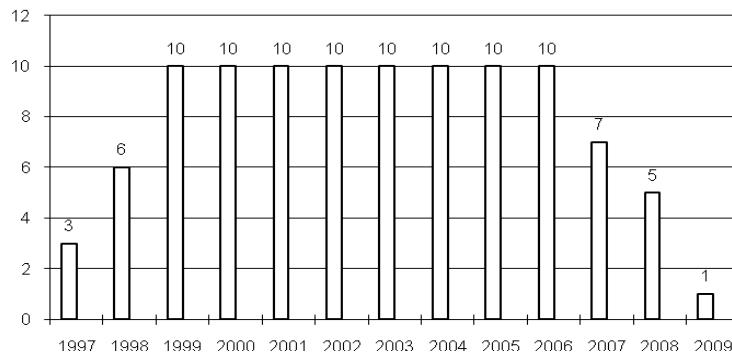

DIVISION OF FINANCE

CERTIFIED CAPITAL COMPANIES

The Department of Economic Development certifies companies as Missouri Certified Capital Companies (CAPCOs) according to Chapter 135 RSMo. These companies are organized to make venture capital investments in Missouri businesses and can earn state tax credits. The Division of Finance is required by Section 135.520 RSMo to conduct an annual review of each CAPCO to determine the company is abiding by the requirements for certification, that investments are qualified, and that those investments conform to the law. Costs of performing the reviews are assessed to the CAPCO. The Division's annual review is provided to the Director of the Department of Economic Development.

Certified Capital Company Reviews

LEGISLATION

The 2009-2010 biennium resulted in numerous legislative enactments affecting financial services in the State of Missouri. Below are the bills that have a direct impact on the Division of Finance.

The 2009 legislative enactments included the following:

HB 382 - Enacted pursuant to a federal law known as the Secure and Fair Enforcement Mortgage Licensing Act of 2008 (SAFE Act). The bill, known as the Missouri Secure and Fair Enforcement for Mortgage Licensing and Residential Mortgage Brokers Licensing Act, requires all individual mortgage loan originators to be licensed by July 31, 2010, and eliminated most of the licensing exemptions (except for depository institutions and first tier subsidiaries) that previously existed for residential mortgage loan brokers.

HB 914 - Removed the requirement that the Commissioner of Finance seek circuit court approval for appointment of the FDIC as liquidating agent for failed banks.

HB 239 - Established the Uniform Prudent Management of Institutional Funds Act which provides guidelines for the management and investment of endowed funds held by charitable institutions.

HB 273 - Changed the evidence allowed for a personal representative to prove expenditures over \$75. This bill now allows cancelled checks, an electronic copy of a check or a bank statement to serve as adequate documentation.

HB 836 - Requires a tenant be provided 10 business days notice prior to foreclosure of real estate.

SB 277 - Allows a bank or trust company to transfer irrevocable life insurance trusts to the Missouri trust office of an out-of-state trust company. Prior to this change, transfers could only be made to Missouri based companies.

The 2010 legislative enactments included the following:

HB 2201 - Exempted certain entities from mortgage originator licensing until June 1, 2010. The bill also included assets secured by financial institutions insured by the National Credit Union Share Insurance Fund in the Missouri Prudent Investor Act. Finally, it amended section 443.701 RSMo, changing the name of the act to "Missouri Secure and Fair Enforcement for Mortgage Licensing Act."

SB 771 - Changed the amount of a certified check that must be submitted by a bank bidding to be a depository for a county.

**Abstracts of Reports of Condition
Filed by State-Chartered Banks
and Trust Companies**

SUMMARY

As of June 30, 2010, 285 state-chartered banks and trust companies, including six nondeposit trust companies, held assets of \$77.1 billion.

Since June 30, 2008, five new bank charters have been granted and 129 branches were approved. Four state-chartered banks merged with out-of-state institutions, thrifts or national banks, five out-of state banks merged into Missouri state banks and five Missouri state-chartered banks merged with other Missouri state banks. One state-chartered nondeposit trust company merged into another state nondeposit trust company. There were five bank failures.

During the biennial period the number of state-chartered banks and trust companies declined by 4.0 percent from 297 to 285, due mostly to mergers and consolidations. Excluding automated teller machines (ATMs), Missouri state-chartered banks had 1,300 offices as of June 30, 2010.

**Abstract of Reports of Condition
Filed by State-Chartered Banks
and Trust Companies
as of June 30, 2010**

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of June 30, 2010, and a comparison with the statements filed one year earlier. Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state chartered banks and trust companies decreased by seven from 292 to 285. Two banks and one nondeposit trust company merged into other institutions. Five state chartered banks closed in the twelve month period. There was one new bank charter granted when a national institution converted to a state chartered bank.

Assets in state-chartered banks totaled \$77.0 billion on June 30, 2010, a decrease of 1.3 percent from one year earlier. Deposits were \$62.9 billion, down 0.4 percent. Total loans were \$51.3 billion on June 30, 2010, down 6.4 percent.

The decline in total loans is the result of several factors. One large bank's sale of a number of out of state branches, including the loans originated at those branches, to out of state banks accounted for most of the decline. Many other banks report a lack of loan demand. During the previous 12 months, over one half (143 of 279) of state chartered banks increased loan balances, but these increases were not sufficient to offset the significant decreases reported by the other institutions.

Asset quality remains challenging for Missouri state-chartered banks, but the overall ratio of past due loans to total loans fell from 5.36 percent at the end of the first quarter to 4.87 percent as of June 30, 2010. Banks continue to strengthen reserves for the adverse effects of the economy on loan portfolios, as Allowances for Loan and Lease Losses increased to 2.27 percent of total loans. Other real estate continues to grow and totaled \$999 million at the end of the second quarter. One year before, other real estate totaled \$770 million. Two years before (June 30, 2008), the total was \$377 million.

The return on assets for the first half of the year was 0.13 percent; however, large losses at three banks heavily influenced this ratio. The return on assets for the remaining 276 banks was 0.67 percent. 102 (or 37 percent) of the 279 banks had a return on assets of 1 percent or more. Provision expense appears to be moderating as the first half of 2010 totaled \$378M, compared to \$456M at June 30, 2009.

**Abstract of Reports of Condition
Filed by State-Chartered Banks
and Trust Companies
as of December 31, 2009**

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of December 31, 2009, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state chartered banks and trust companies decreased by two from 291 to 289. Two banks merged into other institutions. Two state chartered banks closed during this period. There were two new bank charters granted when national institutions converted to state chartered banks.

Assets in state-chartered banks totaled \$80.4 billion on December 31, 2009, an increase of 5.8 percent from one year earlier. Deposits were \$65.6 billion, up 8.2 percent. Total loans were \$53.9 billion on December 31, 2009, down 1.9 percent.

The equity capital ratio decreased to 9.63 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 10.88 percent. The tangible equity capital ratio decreased to 8.46 percent. Despite these changes, capital remains strong in Missouri banks.

Net income in state banks was down 419 percent from December 2008. Return on assets among state-chartered banks was -0.28 percent compared to 0.09 percent in December 2008. The income decline is primarily attributed to three banks. The return on assets for the remaining 279 banks was 0.36 percent. Banks continue to strengthen reserves for the adverse effects of the economy on loan portfolios, as Allowances for Loan and Lease Losses increased to 2.10 percent of total loans.

**Abstract of Reports of Condition
Filed by State-Chartered Banks
and Trust Companies
as of June 30, 2009**

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of June 30, 2009, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by five from 297 to 292. Four banks merged into other Missouri state chartered banks. One bank merged into an out-of-state institution. One bank merged into a Missouri national bank and one bank merged into a federal savings bank headquartered in Missouri. There were two new bank charters granted, one of which was issued when a federal savings bank converted to a state chartered bank.

Assets in state-chartered banks totaled \$78.0 billion on June 30, 2009, an increase of 6.0 percent from one year earlier. Deposits were \$63.1 billion, up 7.9 percent. Total loans were \$54.8 billion on June 30, 2009, up 1.2 percent.

The equity capital ratio decreased to 10.05 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 11.26 percent. The tangible equity capital ratio decreased to 8.71 percent. Despite these changes, capital remains strong in Missouri banks.

Net income in state banks was down 141.4 percent from June 2008. Return on assets among state-chartered banks was -0.20 percent compared to 0.53 percent in June 2008. The income decline is influenced by a small number of banks with three banks accounting for the earnings decline. The return on assets for the remaining 282 banks was 0.55 percent.

**Abstract of Reports of Condition
Filed by State-Chartered Banks
and Trust Companies
as of December 31, 2008**

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of December 31, 2008, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by nine to 291. Four banks and one nondeposit trust company merged into out-of-state banks, four banks merged into other Missouri state-chartered banks, one bank merged into a Missouri national bank, and one bank merged into a Missouri federal savings bank. One nondeposit trust charter was dissolved. There was one bank failure when Hume Bank was closed on March 7, 2008. There were four new bank charters granted, two of which were issued when national banks converted to state charters.

Assets in state-chartered banks totaled \$76.0 billion on December 31, 2008, an increase of 8.9 percent from one year earlier. Deposits were \$60.6 billion, up 7.9 percent.

Total loans were \$55.0 billion on December 31, 2008, up 6.3 percent.

The equity capital ratio decreased to 10.31 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 11.39 percent. The tangible equity capital ratio was down to 8.84 percent. These declines are the result of banks absorbing loan losses at a much higher level in 2008 compared to recent years. Despite the ratio declines, Missouri banks continue to maintain a strong overall capital position.

Net income in state banks was down 89.1 percent for 2008. Return on assets among state-chartered banks was 0.09 percent, compared to 0.95 percent for 2007. The reduced net income is a result of declining asset quality. This is evidenced by an increased past due ratio, and a sharp increase in net loan losses combined with the corresponding provision expense. The income decline continues to be primarily influenced by a small number of banks. After adjusting out ten banks with the largest losses, the return on assets for the remaining 274 banks was 0.70 percent.
